

Injury prevention committee report

October 21, 2017

Committee meeting October 20, 2017

Monica Seaman, Renee Sylvies, Maryann Portoro, Cristy Meyer, Annemarie Dailey

7 members in attendance

Automate Conference Calls: Explore options for structuring the conference call schedule to ensure routinely scheduled conference call each month.

Active Shooter preparedness: In response to the recent active shooter events at health care facilities an active shooter preparedness survey was conducted in NYS to identify the current state of active shooter preparedness and gaps in NYS Emergency Departments. 371 responses were received. The results will be posted on the NYSENA website and the upcoming newsletter.

Trends in responses highlighted the need for ongoing active shooter preparedness, 72% of responses were from RNs working in acute care hospitals. 59% of respondents highlighted they have not accessed the ENA workplace violence toolkit. 45% of respondents have not attended active shooter training. 42% are interested in active shooter training. Top 3 priorities identified by ENA members:

- ▶ Active shooter drills at work
- ▶ Active shooter response training
- ▶ Stronger legislation related to health care facility security

Next steps:

- ▶ Identify model legislation for facility security practices to prevent active shooter events
- ▶ Plan training session as part of annual conference
- ▶ Encourage all chapters to access workplace violence tool kit, ENA position statements, NYS regulations related to workplace violence prevention/staff training
- ▶ Hold legislative lunch at NYS ENA Conference
 - ▶ Include info session on workplace active shooter events
 - ▶ Train legislators in Stop the Bleed
 - ▶ Create a one-pager for legislative asks related to active shooter prevention/preparation
 - ▶ Stop the Bleed initiatives

Contact Injury Prevention chair: Cristy Meyer, RN at injuryprevention@nys.ena.com

Bleeding Control Training: Stop-the-Bleed train-the-trainer was completed in July 2017. Recently Rosanne Mahony, Joanne Fedale and Renee Sylvies trained 24 people in Stop the bleed. The attendees expressed the training was successful and very timely as the training was held on the day of the LasVegas incident. Training equipment mentoring would be helpful to encourage successful training.

Overview of bleeding control.org was reviewed. How to sign up as an instructor and navigating the portal was reviewed at the council meeting. Mentoring was offered from Mary Ann Teeter and Cristy Meyer to push the training initiative in all regions of the state.

A call to TNCC instructors/directors was sent out as well as a link to the instructor portal has been placed on the NYS ENA website.

Recommendations:

- ▶ Plan for 'Setting the Pace' public training event
- ▶ Legislator training event/lunch preconference
- ▶ Assess chapter trainers and completed training
 - Chapters without trainers should contact the injury prevention committee to see training
 - Assessment of all chapters with trained trainers exceeds 75% of NYS chapters
- ▶ NYS ENA mentors are available
- ▶ Potentially partnering with NYS trauma centers to participate in training
- ▶ Develop a one-pager with legislative information and ask
