What ENA has done for me?

Membership in ENA has provided me with the opportunity to meet and work with an amazing group of Emergency Nurses over the past 31 years. The experiences and knowledge we have shared have enabled me to grow as a professional and to improve my Emergency Nursing practice. I am currently retired from bedside nursing but find continuing support and growth opportunities by participating in the state council and instructing ENPC and TNCC courses. Thank you to all of you who have mentored me in myEmergency Nursing career.
