Ms. Campanella has also served as an Adjunct Professor at the Seton Hall University School of Health and Medical Sciences.

**Presentation Title**

## AI In Healthcare: How to Use the Newest IT Tool Compliantly

### **Summary**

The speaker will review some of the new uses of artificial intelligence in healthcare and the corresponding legal provisions of which users of such AI need to be aware. Attendees will learn how to effectively use AI as a tool to enhance care; and how to be careful to not diminish care through use of AI. There will also be a review of how employees who are asked and expected to use AI tools can make sure they are protecting themselves while complying with these new policies.

### **Learning Objectives**

1. What qualifies as “AI” in healthcare and how is it legally integrated into patient care.
2. As an employee what are your rights and responsibilities when using AI?
3. Discussion of board regulations and any potential malpractice risks from irresponsible use of AI.
