Majority of the discussion in committee was the 8th edition role out. The information coming from the webinars that are being offered by national ENA was shared with the committee members. Many, directors and instructors feel that although TNCC flipped class format is the same as ENPC , there have been changes possible from lessons learned with the new ENPC 5th edition role out. For those who have not participated in the ENPC 5th edition role out , there was expressions of apprehension for the new format. Action Action: 1. Listen to the webinars. They are very detailed and should answer most questions. The webinars are located under the TNCC course directors/instructor access.
