**NYS ENA Chapter/Committee Name:**

**National Committee / Other:**

**Date:** 04/11/23

## **Chapter/Committee News:**

The Genesee Valley Region took a field trip to Mercy Flight Central in Canandaigua, NY. There we met with the crew, a pilot, a paramedic, and a flight nurse. Each shared about their background, training and role. They all expressed how collaborative the environment is and why. We learned that flight transport is not regulated by the state, but by the federal government as it is considered aviation. All perform about 20% of their time in training and always looking to improve, update, and learn. We learned the critical value of knowing weather, distance, fuel, and weights. We got to see the first of their new helicopter. Smaller but faster and safer.

## **Attendance:**

Sue Chalupa-Breese, Patrick Byrne
